OUR TEAM

## OUR TEAM

---

In computing, **rebooting** is the process by which a running computer system is restarted, either intentionally or unintentionally. We too here strive to start and restart our work even if we end up failing to achieve what we aim for.

-The Rebooters.

## **PROBLEM CHOSEN**

*How to effectively and conveniently solve the problems faced by students and teachers due to the late admission of students into college or when they take a few holidays. Plus a portal to help students gain access to resources/activities about things in and around Ramaiah Institute of Technology.*

## OBJECTIVE OF THIS WEBSITE

- >> The main idea revolves around easy access to notes, syllabus and faculty for the people who are admitted late or take holidays. This website would help them catch up.
- >> It keeps notes and assignments organised and accessible to all students.
- >> We also aim to form a 'buddy system' which is discussed later in the presentation.
- >> It gives necessary inputs to resources like info about pg.s, hostels, events in and around the college etc.

# BRIEF ON HOW WE PLAN TO SOLVE IT

EASY GO-TO ACCESS TO  
RESOURCES

PROVIDING  
ADEQUATE AND  
ESSENTIAL  
INFORMATION  
ABOUT LIVING,  
ESSENTIALS,  
NOTES AND FOOD  
IN AND AROUND  
THE CAMPUS

BUDDY SYSTEM

ASSIGNING A SAID  
VOLUNTEER  
INCASE NEEDED TO  
THE NEWLY  
ADMITTED  
STUDENT TO MAKE  
CAMPUS LIFE MORE  
FUN AND FREE.

CAMPUS LIFE MADE  
EASY

READING AND  
SENDING ALL  
NECESSARY  
INFORMATION OF  
THE LATELY  
ADMITTED  
STUDENTS TO THE  
RESPECTED  
STAKEHOLDERS

## CAMPUS LIFE MADE EASY-

### HOW WE PLAN ON DOING SO-

- >> We first input the name and other details of the student and the date of admission.
- >> We then find out the faculty assigned to the student and send this information to the faculty members(in the website)
- >>They then get a notification on the website about new admission in class.
- >> We also send the information to the chief proctor and lab head who return an answer assigning the proctor and lab batch/teacher to the student in 2 days time.

## STUDY RELATED RESOURCES

>> The syllabus, notes and the prescribed book PDFS in each subject are uploaded in this subsection where the late admission people,absentees or even people who need resources to study from, can access it here.

>>Assignments can also be uploaded here and it will let the student know when it is due and what assignments are are incomplete by the student

# WHAT WE'LL ACHIEVE

## Students-

- Reduced anxiety
- Easy access to missed out info.
- Easy access to faculty
- Parity/catch up pace.
- Helps students to be more organized and manage time efficiently.

## Faculty-

- Necessary basic information
- Ease to give out information online without offline drama.
- Infrastructure planning
- Parity among students

# BUDDY SYSTEM

>> A group of volunteers will be invited and the proctor shall assign one such volunteer as a 'buddy' to the student.

>> This 'buddy' will help the student with basic stuff like getting around and share notes if required. This will be a complete volunteering scheme where the volunteers will receive 15 activity points if they help someone out.

>> Students will be allotted to the volunteers according to 1<sup>st</sup> come 1<sup>st</sup> serve basis and every class must have a min. of 2 volunteers.

>> A discuss forum will be a sub section in which students with similar interests can have discussions.

## *Working-*

>> This will be done on the portal by the proctor choosing the a volunteer from a saved list and sending it within 2 days and the student + buddy getting intimated about it through the notification bar in the portal. The student and buddy will receive each others name, section, profile(like hobbies/clubs/interests) and contact details.

# WHAT WE'LL ACHIEVE

Late admitted students-

- A friend
- A helping hand

Assigned buddy-

- A friend
- 15 activity points

## EASY GO-TO ACCESS TO RESOURCES-

### WHAT IT IS AND HOW IT WILL HELP-

- >> This is mainly done for students that come from outskirts or other cities to know their campus and area better
- >>The postal will have one whole section dedicated to resources. These will include hostels/pg. details with prices, hotels/cafes with their cuisines and also certain details about the college canteens
- >> The section can be divided into details obtained from online data sets from different websites and also a sub section containing student/ex student comments and suggestions about food and living around Ramaiah.

## EASY GO-TO ACCESS TO RESOURCES-

>>We will also put a sub section about information related to clubs and other events and tournaments on going

>>This subsection will also be used to announce the winners in competitions organised.

# WHAT WE'LL ACHIEVE

## Students-

- A basic idea of what's in and around the college
- Living costs and details.
- This will encourage students to participate in extracurricular activities more actively
- As many students in hostels and pgs get bored in their rooms, letting them know on what all events are happening in an ordered and organised way will help them.

- Details about any new cafes or hotels
- Can input their suggestions for others and also read others suggestions about certain places

# ABOUT TEAM REBOOTERS-
